### AccuPool Swimming Pool Service

### Weekly Full Service Swimming Pool Cleaning

Our weekly pool service keeps your pool in top operating condition so it's always ready for you to enjoy!

AccuPool Service technicians are specialists in maintaining pools in perfect condition through our weekly pool service program. With our service you will know that your pool will always be clean, the water will be fresh and clear and the temperature will be just right.

**During each weekly service visit we do all of the following:**

## Full Service Swimming Pool Cleaning

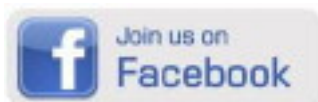

Written by Kevin Ward

Monday, 01 August 2011 19:03 - Last Updated Sunday, 01 March 2015 23:05

---

- The surface and floor are netted as needed
- Vacuum the pool as needed
- Brush pool as needed
- Backwash D.E. (diatomaceous earth) and sand filters as dictated by filter pressure
- Change out filter cartridge for single cartridge systems if replacement is provided as dictated by filter pressure
- Empty skimmer basket(s)
- Empty pump basket(s)
- Empty leaf trap (if installed)
- Empty pool cleaner bag (Polaris/Letro Legend/Robotic/etc.)
- Add chlorine as needed
- Shock pool as required
- Add algaecide as needed
- Balance ph as needed
- Pools are tested for stabilizer, hardness and phosphate levels. We will recommend treatments to address any issues we find.
- Pool equipment is monitored for optimal performance
- Leave a service tag after each visit. We will also note any item that requires action
- We take great precaution to ensure that all access gates into your pool & yard are closed, latched & or locked as found, to prevent dogs from escaping and ensure the safety of neighborhood children.

For more information, please feel free to contact us via Twitter or Facebook below, or request an estimate. If you prefer, we always welcome inquiries by phone at 830-609-3000 or [email](#) .
